2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **Fourth High School**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **1669 Front Royal Pike**

Magisterial District: **Shawnee (Attendance zone: TBD)**

Department Project #: **1**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

The fourth high school project will serve students grades 9-12, have a program capacity of 1,725 students, and will address anticipated growth in high school student enrollment in the school division. The site is located at the end of Justes Drive behind Admiral Byrd MS. This school is designed for collaborative education, similar to the new Frederick County MS, with a variety of learning spaces to meet the needs of a variety of learning styles and to impart skills necessary in today's working world.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

This project will address expected growth in high school student enrollment in the school division over the next several years. We project that enrollment in the high schools by the fall of 2020 will be 4,246 students. High school program capacity is currently 4,050 students. To relieve overcrowding in the high schools, we need to construct the fourth high school in Frederick County to open in that time frame.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing sufficient school capacity to meet projected enrollment trends and to meet modern facility standards. This facility will meet or exceed all Virginia Department of Education's new construction requirements for high schools. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

For the reasons mentioned above, this school will assist the school division and county government in meeting the needs of the community collectively and citizens individually in Frederick County.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 48 months.

Department of Planning and Development. Frederick County, VA

Estimate Cost (in 2016 dollars):

PROPOSED EXPENDITURES

Element	Prior to FY 2018	1 st FY 2017/18	2nd FY 2018/19	3rd FY 2019/20	4th FY 2020/21	5th FY 2021/22	Beyond FY 2022	Long Range Comprehensive Plan Projects	Total

2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **Armel Elementary School Addition and Renovation**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **2239 Front Royal Pike**

Magisterial District: **Shawnee (Attendance**

Department Project #: **2**

Zone: Opequon and Shawnee)

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

Armel ES opened in 1991 and has served continuously as a K-5 elementary school since that time. The school contains 70,281 square feet and has a program capacity of 590 students. As of October 31, 2016, the school has 606 students. Eight classrooms will be added to Armel ES, to accommodate the additional growth at Lake Frederick. The existing facility will be updated as needed and core areas partially renovated to serve the additional students.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

Armel Elementary School is in good condition; however, growth in the attendance zone will need to be addressed through the addition of classrooms to the facility. An attendance rezoning was completed three years ago as part of the implementation of full-day kindergarten. Addressing the growth issue at Armel was studied as a part of this rezoning. Four areas were identified to be rezoned to another school to offset the additional growth at Lake Frederick. None of the four options provided a complete and satisfactory solution. One option would have put Armel outside of its own attendance zone. A second would have split a neighborhood and sent some of the neighborhood to a school

further away. A third would have simply relocated the growth issue to another school. The fourth option was adopted, but only moved ~50 students, a temporary reprieve from growth pressures.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing sufficient school capacity and by providing a facility that meets modern standards. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This proposed project will assist the school division and county government in meeting the needs of the community collectively and citizens individually in Frederick County.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 30 months.

Department Project #: **3**

(Attendance Zone: TBD)

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

The 12th ES will have a floor area of approximately 100,000 square feet and will be located in Snowden Bridge. The facility will be designed to accommodate a student membership of 600.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

The 12th ES project will address anticipated growth in student enrollment in the school division in general and in the Stonewall and Redbud Run Elementary School attendance zones in specific over the next several years.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing sufficient school capacity and by providing a facility that meets modern standards. 2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **Robert E. Aylor Middle School Addition and Renovation**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **901 Aylor Road**

Magisterial District: **Opequon (Attendance zone: Back Creek, Opequon, & Shawnee.)**

Department Project #: **4**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

Robert E. Aylor Middle School opened in 1969 as a junior high. The school contains 113,643 square feet and has a program capacity of 850 students serving grades 6-8. The building is in acceptable condition; however, several major areas need to be addressed in a renovation. Major areas of this renovation project include the following: reorganization and addition of classroom and storage space to better equip the building to support collaborative education, complete replacement of fire alarm and communication systems, upgrade of electrical and plumbing, and complete replacement of mechanical systems. Other areas to be addressed are security and reorganization of asphalted areas.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

Robert E. Aylor Middle School is 47 years old and renovations are needed to a number of areas to ensure the economical and efficient operation of the school for years to come. The school was constructed as a junior high, where the school was arranged by department. Modern instruction requires that the school be arranged by grade and that a variety of learning spaces be provided (classroom, low intensity labs, high intensity labs, small collaborative spaces, large collaborative spaces, etc.) to meet the needs of a variety of learning styles and to impart skills necessary in today's working world.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project will contribute to improving educational services to Frederick County students by providing facilities that meet modern standards. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This project will assist the school division and county government in meeting the needs of the community collectively and citizens individually in the Robert E. Aylor Middle School attendance zone.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 48 months.

2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **James Wood High School Upgrades**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **161 Apple Pie Ridge Road**

Magisterial District: **Gainesboro
(Attendance zone is in Back Creek,
Gainesboro, and Stonewall.)**

Department Project #: **5**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

James Wood High School opened in 1980 and has served as a high school since that time. The school contains 234,095 square feet and has a program capacity of 1,400 students. Currently, the building serves grades 9-12. The building is in good condition; however, several major areas need to be addressed in a renovation. Major areas to be included in this renovation project are increased electrical service and distribution to support technology, technology cabling, hardware and its installation, upgrade of plumbing and mechanical systems, and modification of instructional areas to support modern instructional delivery.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

James Wood High School is 36 years old. Renovations and technological upgrades are needed to a number of areas to ensure effective, economical, and efficient operation of the school for years to come. This school will be renovated to be more like the 4th HS, the new Frederick County MS, and the renovated Aylor MS, with a variety of learning spaces to meet the needs of a variety of learning styles and to impart skills necessary in today's working world.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing a facility that meets modern standards. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This project will assist the school division and county government in meeting the needs of the community collectively and citizens individually in James Wood High School's attendance zone.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

An architectural and engineering study will need to be completed to determine the scope of work to be undertaken and provide preliminary cost estimates for the project. Planning, design, permit approval, appropriation, and construction should take approximately 36 months.

2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **Sherando High School Parking Lot and Softball Field Improvements**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **185 S. Warrior Dr.** Magisterial District: **Opequon (Attendance**

Department Project #: **6** Zone: **Back Creek, Opequon, and Shawnee**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

This project is being undertaken to address several traffic safety concerns identified over the years at Sherando High School and to address equity issues (there is no softball field at SHS). Two studies of the site have been conducted, and a master plan created. Concerns exist for pedestrians, school buses, student drivers, parents, and staff. Rearrangement of the site and the flow of traffic on the site are necessary to address these needs.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

This is a two-part project. For transportation safety, concerns exist on the school site at Sherando High School during arrival and dismissal. The students, many of their parents, and the staff necessary to serve them are exposed to these safety concerns on a daily basis. The flow of traffic at arrival is so slow that at times vehicles on Route 277 back up past Double Church Road.

For the softball field, SHS does not have a softball field on site, instead using a softball field in neighboring Sherando Park. This represents an equity issue between boys and girls sports and is contrary to FCPS' standpoint of equity between boys and girls sports.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in providing as safe an environment as possible for our students, address equality issues, and help to accommodate students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by addressing safety concerns at Sherando High School. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This project does address safety concerns at Sherando High School that have been identified and detailed in studies conducted by our engineer.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 30 months.

2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **Route 522 North Super Street at Gainesboro Campus**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **4651 N. Frederick Pike**

Magisterial District: **Gainesboro**

Department Project #: **7**

**(Attendance Zone: Gainesboro
Elementary and Frederick County
Middle)**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

The entrance off of Route 522 serves both Frederick County Middle School and Gainesboro Elementary School. As part of the design of FCMS, both a Traffic Impact Assessment and a Signal Warrant were prepared. The conclusion of the Signal Warrant was that the intersection met one warrant. However, VDOT requires that intersections meet two warrants in order to qualify for a traffic signal. This project is to provide a solution other than a traffic signal to address safety concerns. The exact form of that solution is still undecided.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

Although the Signal Warrant concluded that the intersection does not qualify for a traffic signal, safety concerns still continue. Visibility over the hill crest northbound is limited. The crossover is narrower than a bus is long, and visibility for left turners who are located in the crossover is nil when a large vehicle is in the northbound left turn lane.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in providing as safe an environment as possible for our students.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by addressing safety concerns at Frederick County Middle School and Gainesboro Elementary School. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

For the reasons mentioned above, this school will assist the school division and county government in meeting the needs of the community collectively and citizens individually in Frederick County.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 24 months.

Individual Project Description and Justification Form

Project Name: **Apple Pie Ridge Elementary School Phase 2 Renovation**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **APRES**

Magisterial District: **Gainesboro**

**(Attendance Zone: Gainesboro and
Stonewall)**

Department Project #: **8**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

Apple Pie Ridge Elementary School opened in 1974 and has served continuously as an elementary school since that time. The school contains 65,120 square feet and has a program capacity of 528 students.

Currently, the building serves grades K-5. The building is in good condition; however, several major areas need to be addressed, including open classroom space, ADA compliance, energy conservation, security, and upgrades of fire alarm, electrical, plumbing, and mechanical systems.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

Apple Pie Ridge Elementary School is 42 years old and renovation is needed to a number of areas to ensure the economical and efficient operations of the school for years to come.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing a facility that meets modern standards. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This project will assist the school division and county government in meeting the needs of the community collectively and citizens individually in the Apple Pie Ridge Elementary School attendance zone.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 36 months.

Individual Project Description and Justification Form

Project Name: **Bass-Hoover Elementary School Phase 2 Renovations**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **TBD**

Magisterial District: **Opequon (Attendance**

Zone: Opequon and Shawnee)

Department Project #: **9**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

Bass-Hoover Elementary School opened in 1975. The school contains 70,569 square feet and has a program capacity of 656 students.

Currently, the building serves grades K-5. The building is in good condition; however, several major areas need to be addressed. Renovations will address several major issues, including open classroom space, ADA compliance, energy conservation, security, and upgrades of fire alarm, electrical, plumbing, and mechanical systems. A building addition, Phase 1, has been done to maintain program capacity and prepare the building for full-day kindergarten.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

Bass-Hoover Elementary School is 41 years old and renovation is needed to a number of areas to ensure the effective, economical, and efficient operations of the school for years to come.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

Completion of this project will assist in maintaining State-recommended teacher-to-student ratios, assist in providing necessary services to special-needs populations, and assist in accommodating students and staff with disabilities.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing a facility that meets modern standards. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This project will assist the school division and county government in meeting the needs of the community collectively and citizens individually in the Bass-Hoover Elementary School attendance zone.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 36 months.

CIP

2017-2018 Capital Improvements Plan

Individual Project Description and Justification Form

Project Name: **Administrative Office**

Department: **Frederick County Public Schools**

Department Contact Person: **Wayne Lee**

Phone Number: **(540) 662-3889 x88249**

Email: **leew@fcpsk12.net**

Location of Project: **TBD**

Magisterial District: **TBD**

Department Project #: **10**

Project Description: Give a brief (1-2) paragraph description of what the project includes. Provide basic information, such as the location, size, acreage, floor area, capacity, etc.

Frederick County Public Schools' administration has been located at the old Kline Elementary School building since 1983. Before the building was converted to offices, it had served as a school since 1961. The facility contains 27,992 square feet, including the 5,000 square foot Annex and the 2,400 square foot Finance Addition, but not including the four modular classroom units that are used for offices and work space.

Project Justification:

Please describe the need for this project and justify the proposed location of the project.

The 55 year old Administrative Offices building does not have enough office and meeting space, needs technology upgrades, and improvements to the mechanical, plumbing and electrical systems to meet modern code. Meeting space is at a premium, as we have only 2 sizeable meeting rooms. There are also building security and asbestos issues. Existing issues will become more pressing and new issues will appear as the district (and therefore the staff) grows.

Legal Requirement:

Is the project required in order to meet a State or Federal mandate or some other legal requirement?

This project will empower the Frederick County Public Schools' administrative staff to work more efficiently. This will improve our ability to monitor and maintain compliance with the Federal and State laws and regulations that govern education. This project will also address building code issues.

Conformance to the Comprehensive Plan:

Does the project conform to, or contribute to the attainment of the goals and objectives of the 2030 Comprehensive Plan? Is the project consistent with established policies?

This project contributes to improving educational services to Frederick County students by providing a facility that meets modern standards. This project is consistent with established policies and procedures of the Frederick County School Board.

Public Health, Safety, or Welfare:

Does the project improve conditions affecting health, safety, or welfare? Does it eliminate a clear health or safety risk?

This project will assist the school division and county government in meeting community and individual needs countywide.

Construction Schedule: If the project will take several years to complete, outline the schedule here. Be sure to include any work that might have been done in previous years, including studies or other planning.

Planning, design, permit approval, appropriation, and construction should take approximately 30 months.
