The Murder at the Museum of American History Scavenger Hunt

The National Museum of American History, Washington D.C.

AGES 16+

The hunt is played on teams of two to six people. Total running time is approximately 2.5 hours.

Someone, or something, has been bumping off National Museum of American History staffers involved in the recent discovery of a long-lost invention by Benjamin Franklin. This "infernal machine" has a murky past: Freemasons supposedly used it as part of a secret ritual. Are the deaths caused by the invention, or part of the fabled "Curse of the Freemasons"? Or is a serial killer on the loose? Your team of sleuths will have to crack a secret code and uncover the museum's secrets to solve the mystery and stop the killings.

This hunt is for adults only. Those that are under 18 will have to be accompanied by an adult. For murder hunts, we strongly recommend hunting with a team of three or more. If you sign up with fewer than three people, we suggest pairing up with others at the start of the hunt to form a larger team. You can have a max of six on a team.
