

HOLIDAY FIRE SAFETY

Safety for the Home

Before you cook your holiday dinner, be sure that the oven and stove are free of grease and are in good working order.

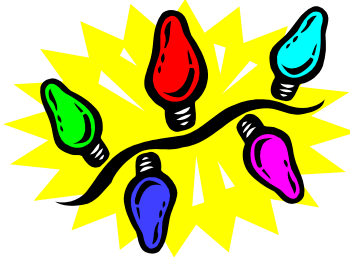

Handles on stove-top pots should be turned away from the front.

Have chimneys and fireplaces inspected by a professional to make sure it's clear of any obstructions. **NEVER** burn paper or trash in the fireplace.

Be sure your fireplace is covered with a metal screen or glass doors to prevent the spread of sparks.

Don't overload electrical outlets.

Don't leave candles burning or in areas where children or pets could knock them over.

Choose decorations that are flame resistant or flame retardant and keep them away from lit candles, fireplaces and heating equipment.

Safety for the Tree

If your tree is purchased from a lot, test its freshness by pulling along a small branch. If needles fall into your hand, it's already too dry.

Before placing the tree in the stand, cut 1-2" from the base.

When the tree is decorated and inside your home, check the water every day and add water as needed.

Don't place the tree near sources of heat such as fireplaces, radiators, registers, space heaters, or heating ducts.

Always turn off Christmas tree lights before leaving home or going to bed.

Don't cut up and burn your tree in the fireplace. Evergreens give off tar and creosol which can ignite and cause a chimney fire.

Dispose of your tree when it begins dropping needles. Dried-out trees are a fire hazard and shouldn't be left in the home, garage or placed outside against the home.

Artificial trees should bear a UL label of approval. Only purchase trees made of fire retardant materials.

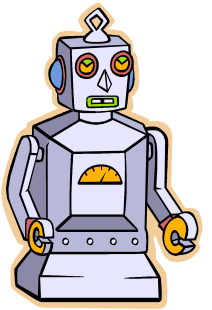

Safety for the Toys

Check all toys with electrical motors or lights to make sure they are UL approved or independently tested.

Make sure toys are made of non-flammable materials.

Only give toys that are age appropriate. Many manufacturers indicate an age range for toys. Watch for small parts that could cause small children to choke.

Remember...matches and lighters are not toys! Keep them out of reach and out of sight.

HAPPY HOLIDAYS!!

BE SAFE!!
