Subject: Request for Staffing Level due to scheduled and unscheduled leave

Lenny,

Per your request, I have calculated how many employees you need in order to provide relief coverage for employees' scheduled time off and unscheduled leave.

On average, each field employee uses an average of 16 hours per month of Paid Time Off (Vacation/Sick) (16 x12 = 192 hours per year).

Calculation A: Uses 125 field employees

192 hours per year x 125 employees = 24,000 hours divided by 2080 = **11.54 employees needed for staffing relief**

Calculation B: Uses 104 employees (125 field employees less 21 Civil employees)

192 hours per year x 104 employees = 19,968 hours divided by 2080 = **9.6 employees needed for staffing relief**

Calculation C: Uses 88 employees (104 employees less 16 Investigators)

192 hours per year x 88 employees = 16,896 hours divided by 2080 = **8.12 employees needed for staffing relief**

I have also provided a chart below that shows the average years of service (you currently have 4 open positions) for your field employees.

Title	# of Emps	Avg. years of service
Captain	4	23
Lieutenant	10	23
Sergeant	8	14
Deputy I	21	1.7
Deputy II	21	2.4
Deputy III	41	11
Investigators	16	11

Please let me know if you need anything else.

FCSO / NOVA-DC ICAC Internet Crime Against Children Unit

The Investigator worked or reviewed a total of 156 child exploitation cases in 2017.

Arrested a total of 18 suspects for numerous felony offenses.

Of the 156 cases, 51 were active solicitation cases meaning the Investigator was chatting online with the suspects.

Of the 51 active solicitation cases, 44 (felonies) had to be let go to pursue exigent cyber tips assigned to by VSP / National Center for Missing and Exploited Children, and local county cases involving child exploitation, child pornography, and child enticement/solicitation.

This is unacceptable but we don't have the manpower to assign a second person to this Unit at this time..
