## **Outpatient Treatment Services and Fees 2018/2019**

While the primary focus of the program is to keep children within their family and community, **Empowering Families for Success** is an outpatient program offering mental health and skill development services to individuals and families with many unique needs. Not just limited to traditional counseling services, our staff works with each client and/or family to discover and then implement a plan towards a healthier path of wellness.

**Service hours when you need it** - able to operate outside the normal 9 to 5 workday and Monday thru Friday work week. Our staff ensures that we are able to accommodate active individuals and families who may not be able to take leave from their jobs or cancel important daytime appointments.

Along with traditional services such as **Individual Therapy, Couples Therapy, Family Therapy, and Group Therapy**; our program designers have spent nearly 30 years fine tuning our specialized process of **Parent Education, Parent Coaching, and Mentorship Services** that can now be shared.
