

Biofeedback*WORKS* in Virginia, PLLC

LIST OF SERVICES

FY21

Initial Consultation\$150

Consultation to review history and current symptoms. Explanation of our process with demonstration.

QEEG Assessment (Brain Map)\$825

This includes the data collection session, digital analysis of the data, and a review by a neurologist (MD).

If a learning disability or issue is suspected, we offer digital analysis of the EEG recording made while performing a task such as reading, doing arithmetic, or listening.

IVA+Plus.....\$150

Auditory and visual continuous performance test used to assess ADHD symptoms, establish a baseline and help track progress. Given before neurofeedback training and after every 20 sessions.

Intake Interview/Treatment Plan\$180

Includes an intake assessment, consultation, and any psychological tests deemed advisable based on presenting problems. An individualized treatment plan will be developed for each client.

Neurofeedback and General Biofeedback per session.....\$150
