LIST OF SERVICES

***The following services fall under the standardized service name
“Assessment/Evaluation.”***

Initial Consultation.....\$150.00

During this appointment, the client discusses their history and symptomology. The therapist provides a detailed explanation of the services available and how our process works. The therapist then discusses with the client and determines which service or combination of services will be most effective

QEEG (Quantitative Electroencephalograph; Brain Maps):.....\$825.00

This includes the data collection session, digital analysis of the data and a review by a neurologist (MD). If a learning disability or issue is suspected, we offer digital analysis of the EEG recording made while performing a task such as reading, doing arithmetic or listening.

Biofeedback/Neurofeedback Sessions.....\$150.00/session

Psychological Testing and Assessment (IVA+Plus).....\$150.00

Auditory and visual continuous performance test used to assess ADHD symptoms to establish a baseline and help track progress. Given before neurofeedback training and after every 20 sessions.

Intake Interview.....\$180.00

Includes an intake assessment, consultation, and any psychological tests deemed advisable based on presenting problems. An individualized treatment plan will be developed for each client.

Re-QEEG.....\$350.00

Repeat brain map to assist in tracking brain changes, treatment progress, and future protocol selection.
