

Fiscal Year: July 1, 2021 – June 30, 2022

Individualized Support Services

This home based service provides counseling interventions for children, adolescents, adults, and/or their parents or caregivers. Detailed assessments will be completed before services begin documenting the emotional, behavioral or mental health issues that will be addressed during the duration of services. Services could include individual and family counseling, parental support and training. Services will be based primarily in the home and at least one parent must be a willing participant in the service plans.

- o Fee: \$60 per hour
- o Possible funding streams: Medicaid, CSA, Mental Health Initiative, Private Pay, Other

Fiscal Year: July 1, 2021 – June 30, 2022

Intensive In-Home Services

Intensive In-Home Treatment: This service provides intensive short-term stabilization (2-6 months) for youth under the age of 21 and families when the youth is in danger of losing their placement in the home. This service may also be utilized for reintegration back into the home after an out-of-home placement. Detailed assessments will be completed documenting the emotional, behavioral or mental issues that place the youth at risk. Services will be based primarily in the home and at least one parent must be a willing participant in the service plans. Intensive In-Home Treatment provides crisis treatment; individual and family counseling; communication skills, counseling to assist the child and his parents to understand and practice appropriate problem-solving, anger management, and interpersonal interaction, and coordination with other required services. The caregiver (biological parent, guardian, relative, family residence of a permanent, temporary, or pre-adoption placement) and youth must also be committed to meeting for a minimum of 5 hours per week. 24/7 crisis support remains available throughout the service period and discharge planning will focus on maintaining the placement.

- o Fee: Maximum of up to \$60.00 per hour or current Medicaid allowable charge
- o Possible funding streams: Medicaid, CSA, Private Pay, Other

Fiscal Year: July 1, 2021– June 30, 2022

Mental Health Skill-Building Services

Mental Health Skills Building Services focuses on building independent living skills with older adolescents and adults who need support in addressing their mental health issues that are affecting their ability to remain or develop independent living. A wide variety of goals can be developed during this program and clients are given direct help in achieving these goals. Goals could focus on the following areas over a period of 6 months: self-care, daily living skills, social relationships, finding stable housing, utilizing public transportation, obtaining stable employment, working toward school related goals, money management, etc. Clinicians provide direct care for these clients at an average of 6-9 hours per week helping them develop the ability to better manage these mental health needs and to achieve success in building these independent living skills. This program is licensed under Mental Health Supportive Services and certain mental health requirements are necessary for Medicaid reimbursement.

- o Fee: \$60 per hour

- o Possible funding streams: Medicaid, CSA, Mental Health Initiative, Private Pay, Other

Fiscal Year: July 1, 2021 – June 30, 2022

Mentoring

This service may be utilized in combination with one of the more intensive services, as a step-down service or in some cases a stand-alone service for youth who require less intensive interventions. This service provides individualized mentoring services to youth with various emotional disturbances. An individualized treatment plan is developed for the mentoring or therapeutic mentoring service, to work on areas such as: social skills training, connecting the youth to community resources and activities, anger management, emotional regulation, self esteem, life skills, daily living skills and more.

- o Fee: \$50 per hour
- o Possible funding streams: CSA, Mental Health Initiative, Private Pay, Other

Fiscal Year: July 1, 2021 – June 30, 2022

Applied Behavior Analysis

Connections Program provides multi-disciplinary treatment interventions for children and adolescents with communication and other impairments who need extra support to change their behaviors.

- Typical behavior challenges include aggression, disruptive, destructive or unsafe behaviors, communication deficits, inappropriate social interactions, and/or significant delays in the activities of daily living.
- The focus is on rehabilitation for improved function.
- Services are delivered in the home environment with family participation.
- Interventions are evidenced-based.
- Case coordination is integrated to best support stability and maintenance of newly learned appropriate behaviors.
- Services will be directed by an LBA and fees will include the direct supervision between the LBA and the clinician.
- Services and fees will include:
 - Billable treatment plan development by LBA
 - Resource development and making various visuals that will be used as a part of treatment
 - Data collection and analysis
 - Team approach, including supervision and collaboration between LBA with the Team Leads and Assigned clinicians. This includes some concurrent billable services, when necessary, with the client with Lead Behavioral Support Clinician and with assigned Behavior Support Clinician for data collection, safety concerns, and implementing assessments (examples could include: task analysis assessments, skill assessments, verbal behavior assessment)
- Clients must meet medical necessity requirements for eligibility as determined by the child's physician.
- **Hours a minimum of 12-15 hours per week**
Assessment/ Intake: \$60 per hour, for 5 hours
Fee: \$60 per hour, services will adhere to medicaid regulations for allowed billable services.

Possible funding streams: Medicaid, CSA, Private Pay, Other

Fiscal Year: July 1, 2021 – June 30, 2022
