81025	Urine Pregnancy Test (price per test used)	\$10.00
J code varies for type of drug	Injection of Psychotropic medication	\$25.00

Program Services and Rates FY22

LifeBridge Academy offers year-round school with a variety of programs designed to meet the diverse educational needs of adolescents with behavioral and emotional challenges.

REGULAR SCHOOL YEAR PROGRAMS

Middle School & High School Traditional School Program: This program is designed for students in grades 6 - 12 who are pursuing a standard high school diploma. All courses in this track follow the Virginia Standards of Learning. High School classes are offered in a traditional classroom setting or online. Middle School classes are in person, supplemented with online activities.

ISAEF Program: For students aged 16 and above, we offer the option of preparing for the GED as an alternative to a traditional high school diploma. Students in this program work online to complete preparation for the GED tests with the option of physical education, career preparation and life skills courses to complement GED work. Students must meet ISAEF criteria to be eligible for this program.

Gap Program: This program is especially developed for students who need a short-term educational option. Students who are waiting for a permanent school placement or who are on homebound placement with their home school can utilize this temporary academic program.

SUMMER SCHOOL PROGRAMS

ISAEF Program: GED students can continue to complete GED preparation work during the summer.

Academic Remediation: Many students who are experiencing emotional and behavioral challenges have missed instructional time and may be functioning below grade level in reading and math. Our Summer Remediation program is an intense 8 week program focused on increasing basic reading and math skills.

Credit Recovery/High School Coursework: Online coursework, supervised by our experienced staff is offered for high school students who need to repeat a required course or who want to get a class under their belt during the summer.

All summer programs are complemented with therapeutic recreational activities including art, music, physical education, community service, and gardening as well as career exploration and life skills development.

Intercept Health
Community Home Per Diem Rate Schedules
July 1, 2021 – June 30, 2022

Group Homes for Boys:

Carriage House
Shenandoah House
Independence House

Group Homes for Girls:

Providence House
Spring House *Autumn House*

Intercept Health's Community Homes are Level-B Group homes for males and females, ages 12-19 years of age. Our homes are spacious, comfortable, community based, and provide a natural environment for treatment.

Our community homes work with a variety of psychiatric diagnoses and behavioral disorders, including sexually reactive behavior. Our structured therapeutic milieu promotes pro-social behavior, self-esteem, emotional stability, personal accountability, and character building, while teaching the life skills necessary to become productive and responsible young men and women.

Comprehensive Daily Rate Breakdown:

	Medicaid Approved	Non-Medicaid
Residential Room & Board Includes semi-private room, 3 meals per day, snacks and personal care items	not covered	\$226.85
Daily Supervision (Therapeutic Behavioral Services) ¹	\$146.22	\$146.22
Total Comprehensive Daily Rate		\$373.07

1. For Medicaid-eligible residents, Daily Supervision/Therapeutic Behavioral Services for Children and Adolescents under age 21 (Level B) are reimbursed by Virginia Medicaid at the rate of \$146.22 per day. The Procedure Codes are H2020-HW (CSA) and H2020-HK (non-CSA). Daily supervision includes a 1:4 staff to resident ratio as during awake hours and 1:8 staff to resident ratio during sleeping hours.
-

Intercept Health
Children's Community Home Per Diem Rate Schedules
July 1, 2021 – June 30, 2022

Children's Community Home: Shire House

Intercept Health's Children's Level-B Community Home is designed to treat males and females, ages 7-12 years of age. We create a comfortable and supportive environment for our young clients to receive the treatment they need to successfully transition into a family setting. Children with psychiatric disorders relating to mood instability, conduct issues or even sexual reactive behaviors will receive weekly individual and group therapy with a licensed or licensed-eligible clinician. Family engagement will be a priority so that natural supports are maintained and placement in a family setting can be achieved. In addition, they will be provided a structured, therapeutic milieu that will include age appropriate psycho-educational groups, mixed with fun recreation activities daily that will be catered to each client's identified treatment goals.

Comprehensive Daily Rate Breakdown:

	Medicaid Approved	Non- Medicaid
Residential Room & Board Includes semi-private room, 3 meals per day, snacks and personal care items	Not Covered	\$226.85
Daily Supervision (Therapeutic Behavioral Services) ¹	\$146.22	\$146.22
Total Comprehensive Daily Rate		\$373.07

1. For Medicaid-eligible residents, Daily Supervision/Therapeutic Behavioral Services for Children and Adolescents under age 21 (Level B) are reimbursed by Virginia Medicaid at the rate of \$146.22 per day. The Procedure Codes are H2020-HW (CSA) and H2020-HK (non-CSA). Daily supervision includes a 1:4 staff to resident ratio as during awake hours and 1:8 staff to resident ratio during sleeping hours.

Total Programmatic Daily Rate		\$476.32
On-Site Education (12-month school year / M-F and enrichment days) ³		\$195.68
Total Education Daily Rate (M-F)		\$195.68

Optional Services

Speech & Language per IEP (each session)	(based on external provider)
Occupational Therapy per IEP (each session)	(based on external provider)

Assessment Options

- **Psychological Testing** - Included in A&D Track; not included in 30-day Stabilization Track; Testing may include Cognitive, Personality/MSE, Educational testing based on appropriateness.
 - Cognitive assessments include administration of a valid IQ test (e. g. WISC, WAIS, WJ COG, DTLA), as well as supplemental testing as needed. For example, this might include tests of executive functioning, memory, language, fine motor skills.
 - Personality/MSE assessments include structured clinical interviews and mental status examination and other measures tailored to client needs, for example, behavioral and symptomatic questionnaire and assessments based on clinical presentation may include, but are not limited to use of tools such as Behavioral and Emotional Rating Scale (BERS-2), Casey Life Skills Assessment, Youth Resiliency Checklist, Strengths and Needs Assessment (SNA), Severity Measure for Generalized Anxiety Disorder, Affective Reactivity Index, Beck Depression Inventory, as well as projective techniques such as Rorschach Inkblots, Incomplete Sentences, and personality testing (MMPI-Adolescent)
 - Educational testing includes administration of a valid, standardized achievement test battery (e.g. WIAT, WJ ACH), as well as supplemental testing as needed.

- **Sexual Offense Assessment (i.e. J-SOAP, SAI, Phase Questionnaire)** - Included as appropriate
- **Psycho-Sexual Evaluation -** (based on external provider)
- **Genogram** - Included in A&D Track; not included in 30-day Stabilization Track
- **Physical Examination** (based on external provider unless covered by insurance)
- **Dental Examination** (based on external provider unless covered by insurance)

1. For Medicaid-eligible residents, Daily Supervision/ Therapeutic Behavioral Services for Children and Adolescents under age 21 (Level B) are reimbursed by Virginia Medicaid at the rate of \$146.22 per day. The Procedure Codes are H2020-HW (CSA) and H2020- HK (non-CSA).

2. Additional Daily Supervision includes increased staffing patterns to provide adequate sight and sound supervision while completing the assessment and evaluating “what is and is not working” for the youth. This fee is associated with increased clinical support, increased staffing patterns, and on-going observations in order to make adjustments to the behavior support program based on the youth’s individual strengths and needs.

3. FreshSTART believes in teaching to the whole child and developing students into fulfilling adults who are a benefit for their potential communities. We do this by including enrichment days into the yearly school calendar to ensure the learning experience for students encompasses traditional and character education. Enrichment days will promote critical thinking and problem-solving skills, improve student's ability to concentrate, and make learning more meaningful, valuable, and rewarding. Enrichment days will be led with kinesthetic learning activities that are fun, which helps students to become more engaged in their learning and retain more information.

(based on external provider unless covered by insurance)

- **Dental Examination**

(based on external provider unless covered by insurance)

1. For Medicaid-eligible residents, Therapeutic Behavioral Services for Children and Adolescents under age 21 (Level B) are reimbursed by Virginia Medicaid at the rate of \$146.22 per day. The Procedure Codes are H2020-HW (CSA) and H2020- HK (non-CSA).

2. Additional Daily Supervision includes increased staffing patterns to provide adequate sight and sound supervision while completing the assessment and evaluating “what is and is not working” for the youth. This fee is associated with increased clinical support, increased staffing patterns, and on-going observations in order to make adjustments to the behavior support program based on the youth’s individual strengths and needs.

3. FreshSTART believes in teaching to the whole child and developing students into fulfilling adults who are a benefit for their potential communities. We do this by including enrichment days into the yearly school calendar to ensure the learning experience for students encompasses traditional and character education. Enrichment days will promote critical thinking and problem-solving skills, improve student's ability to concentrate, and make learning more meaningful, valuable, and rewarding. Enrichment days will be led with kinesthetic learning activities that are fun, which helps students to become more engaged in their learning and retain more information.

Service Descriptions

2021-2022

Intercept Health Foster Care Services

Therapeutic Teaching Parent Payment: (Enhanced Maintenance Payment – Per VEMAT) ... Enhanced Maintenance Payment is the source of the payment to foster parents for the extra supervision involved in their work with special needs/emotionally disturbed youth as defined by the Virginia Enhanced Maintenance Assessment Tool (VEMAT).

Private Foster Care Support Supervision and Administration- Level 3 Intensive ... The needs of a child served at level 3 on-going treatment foster care are of such acuity or severity that they require intensive action (interventions, services, supports etc.) be taken to address, remedy or ameliorate the needs. Without such intervention(s) the child may be at risk of residential placement. Children served at level 3 will demonstrate a high level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring, or intellectually disabled.* Every month respectively, Intercept Health Staff will provide at least four (4) face to face visits with the youth, two (2) of which are conducted in the treatment foster home.

Private Foster Care Support Supervision and Administration - Level 2 Intermediate.... The needs of a child served at level 2 on-going treatment foster care require that significant action (interventions, services, supports etc.) be taken to address, remedy or ameliorate the identified needs. Children served at level 2 will typically demonstrate relatively moderate level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring or, intellectually disabled.* Every month respectively, Intercept Health Staff will provide at least three (3) face to face visits with the youth, one (1) of which is conducted in the treatment foster home.

Private Foster Care Support Supervision and Administration- Level 1 Therapeutic.... The needs of a child served at level 1 on-going treatment foster care require monitoring or the LCPA may need to provide services to lessen the likelihood that identified needs will become more acute or return after being “resolved”. Children served level 1 will typically demonstrate a relatively low level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring or intellectually disabled.* Every month respectively, Intercept Health Staff will provide at least two (2) face to face visits with the youth, one (1) of which is conducted in the treatment foster home.

Assessment Treatment Level... Children served at the assessment level of treatment foster care are those who are newly placed with licensed child placing agency and for whom an assessment to determine the appropriate level of foster care services is being conducted. The maximum stay at the Assessment Treatment Level shall not exceed sixty (60) days to complete a needs assessment and service plan, per requirements of VDSS, Division of

licensing Programs. The time frame of the assessment may vary based on the accurate and thorough assessment of the child's strengths and needs.

Non-Treatment Foster Care... Children served at the non-treatment level of foster care may be developmentally on target, demonstrate age-appropriate behaviors, able to participate in community activities without restriction, or be the sibling of a child who meets the criteria for on-going TFC placement in the same foster home. Children shall be served at the Non-treatment Foster Care level if the assessment indicates treatment foster care services are not needed. Children/youth placed on the Non-Treatment Foster Care Level are not expected to meet DMAS criteria; this service includes a maximum of one (1) face to face visit with the youth in the treatment foster home and (1) face to face visit every 60 days conducted by Intercept Health Staff. This contact per month includes 24/7 crisis intervention.

*All TFC-Support & Supervision Levels may have additional support services that assist in the implementation of the child/youth's treatment goals/objectives and/or permanency goal/discharge plan.

TFC Case Management ... Defined by DMAS in 2007, this service assists clients in gaining access to needed medical, social, educational and other services. It covers assessment, planning, referral and monitoring of services. It does not cover direct delivery of services, recruitment and approval of foster parents, their training, staff training, client placement, foster parent support, supervision and other service components of TFC. This service is combined with the appropriate level of TFC-Supervision & Support described above. This service may or may not be covered by Medicaid depending upon the eligibility of the child. It is billed at a day rate when paid through CSA.

Infant Rate/Support Service ... This rate covers coordination of and services for infants who remain in the custody of a Treatment Foster Care client. This is an additional service that can be contracted on a case-by-case basis. Services for the infant will be monitored through the relationship with the client when placed together. The Basic Maintenance for the infant is added to the client's charges. For infants who are in the custody of social services and placed in an Intercept Health home, all individual foster care rates apply for infant.

Overnight Pre-Placement Visits... There is no charge for daytime or overnight pre-placement visits. The visits are intended to ensure proper placement and adjustment of child and family prior to formal placement. Mileage and travel expense reimbursement can be agreed upon for unique situations in advance of pre-placement visits on a case-by-case basis.

Supportive In-Home ... This is an add on service, that can be utilized in conjunction with the TFC-Support & Supervision and TFC Case Management services to offer individual and/or family counseling services to assist in the transition of children/youth from higher levels of care before s/he is placed in the treatment foster care home or to provide extra therapeutic support to a child/youth who may be at risk of placement disruption.

Short-term Foster Care Services (Community) ... This is designed to provide crisis or alternate planned-support relief for up to 29 consecutive calendar days to families in need of substitute care placement arrangements for children/youth. The substitute care placement environments used are approved Intercept Health foster homes. Short-term overnight care:

Level 1: Overnight respite care for children with behavioral issues requiring minimal to no intervention.

Level 2: Overnight respite care for children with behavioral issues requiring major interventions.

Respite Services ... This is a temporary, internal support service provided to approved Intercept Health foster families, for which Intercept Staff arrange on their behalf with other internal Intercept Health foster homes by reviewing respite care options with teaching parents and by the matching children with respite caregivers.

Respite Services provide valuable support and relief to the primary treatment foster families while ensuring the health and safety of the client and families. Use of respite is also a healthy mechanism to enhance attachments for children/youth with their caregivers. This service can also provide emergency relief to internal Intercept Health families in crisis situations. An accrual system is utilized with Intercept Health foster families. This service can be contracted to allow for additional respite services for children/youth on a case-by-case basis when the child/youth has exceptional needs.

Crisis Stabilization (Urban / Rural) ...this is a Medicaid eligible program for children, adolescents & adults at-risk of psychiatric hospitalization and/or incarceration due to mental health issues. Crisis One provides clinical crisis services in the homes and communities of individuals experiencing suicidal ideations, severe depression, aggressive or self-harming behaviors, extreme social isolation, threatening behaviors, dangerous decision making, property destruction, hallucinations/delusional thinking, and other decompensating changes in behavior that prompt concern.

Psychiatric Stabilization

Intercept's Psychiatric Stabilization Services are direct mental health care to non-hospitalized individuals experiencing an acute crisis of a psychiatric nature that places them at risk of psychiatric hospitalization or at risk of placement disruption. The goals are to avert hospitalization or re-hospitalization; stabilize the current placement, provide normative environments with a high assurance of safety; stabilize individuals in psychiatric crisis; and mobilize both referrals for necessary treatment post discharge as well as resources through natural supports. While admitted to the program, individuals will participate in a psychiatric evaluation and/or medication evaluation, treatment planning, individual and group counseling, and symptom and behavior management for up to 15 consecutive days or on an intermittent basis for up to 30 days. Staff who provide Psychiatric Stabilization services use a trauma informed care approach.

Additionally, service provision may include any caretaker or involved professional with or without the client if clinically indicated. Crisis staff may participate in treatment team meetings and participate in service coordination and referral work with or without the client.

Therapeutic Aide- see 360 Transitional Solutions for service definition.

360° Emergency Aide- see 360 Transitional Solutions for service definition.

Service descriptions last revised 3/15/21

“There is no charge for non-treatment level case management. In addition, if Medicaid determines the child does not meet medical necessity criteria and denies Treatment Foster Care Case Management, CSA may pay for case management based on justification of need. In all cases, Provider must obtain FAPT/CPMT prior approval.”

Intercept Health
YouthQuest Anywhere Per Diem Rate Schedule
Community Based Independent Living Services
July 1, 2021 – June 30, 2022

Comprehensive Rate and Services:

YouthQuest is excited to offer a community based independent living services providing intensive 1:1 case management and independent living training for youth in their own apartment. The service is set up in 3-month tiers and is designed to be completed in a year or as the youth achieves proficiency. During this service youth will be able to build their rental histories, manage their money, attend an educational program and establish employment stability. Program Staff will use the Casey Life Skills Assessments, provide support 24 hours a day, provide 1:1 training, and case management services to the youth as they continue to live independently.

Room and Board: Responsibility of the youth

Independent Living Services:

\$54.07 per hour

The following services are included in the Independent Living Service:

- Identify and secure housing
- Maintain housing
- Create a transitional living plan, and work on goals
- Identify and utilize community and family resources and supports
- Obtaining and maintaining employment

Intercept Health

Community Based Services Descriptions

July 1, 2021 – June 30, 2022

Intensive In-Home Services - Services for children/adolescents under the age of 21. Services are intensive, time-limited interventions provided typically but not solely in the residence of a child who is at-risk of being moved into an out of home placement or who is being transitioned to the home from an out of home placement due to documented clinical needs of the child. These services provide crisis treatment, individual and family counseling and communication skills (e.g. counseling to assist the child and his parent to understand and practice appropriate problem-solving, anger management, and interpersonal interactions, etc.) and coordination with other required services. Services also included 24-hour emergency response.

Supportive In-home Services - Support and other structured services provided to strengthen individual skills and or provide environmental supports for individuals with behavioral/mental health problems. Services are based on the needs of the individual and include training and assistance. Services include Supportive In-home non- licensed service.

Crisis Intervention and Crisis Stabilization (Crisis One- Mobile Crisis Services) - Crisis One is a mobile crisis service for children, adolescents & adults who are experiencing an acute crisis of a psychiatric nature that may jeopardize their current community living situation. Crisis One provides clinical crisis services in the homes and communities of individuals experiencing suicidal ideations, severe depression, aggressive or self-harming behaviors, extreme social isolation, threatening behaviors, dangerous decision making, property destruction, hallucinations/delusional thinking, and other changes in behavior that prompt concern of decompensation.

Mental Health Skill-Building Service - A training service for individuals with significant psychiatric functional limitations. Services are designed to train individuals in functions skills and appropriate behavior related to the individual's health and safety, activities of daily living and use of community resources, assistance with medication management and monitoring health, nutrition and physical condition. These services are intended to enable individual with significant mental illness to achieve and maintain community stability and independence in the most appropriate, least restrictive environment.

360° Transitional Solutions- Community based programming providing evidence-based therapeutic interventions. *Services include:*

- **360° Therapeutic Aide** – One to one support for clients in the community and daycare/school setting. A Behavioral Assessment will be completed upon initiation to include observation, documentation review and interviews with members of the treatment team to help identify goals for the Behavioral Plan. A Behavioral Plan will detail the Goals, Objectives and Interventions to be implemented to address the identified problems areas inhibiting the client's stability and success. Staff are trained in ABA strategies, trauma-informed care, PBIS and resiliency theory.

School-based TA staff will provide up to 19 days of additional therapeutic services during school identified holidays and non-educational days, referred to as Enrichment Days at no additional cost. Enrichment days will promote critical thinking and problem-solving skills, improve student's ability to concentrate, and make learning more meaningful, valuable, and rewarding. Services can be provided 1:1 or 1:2 depending on the client's needs. Clients demonstrating emotional gains and receiving a 1:1 can transition to a 1:2 or a lower level of care.

- **360° Emergency Aide:** Emergency Aides are dispatched on short notice to provide adequate supervision for children/adolescents needing assistance for up to 30 days. Full 24-hour supervision is also available. Additional Aides may be utilized for children/adolescents who may exhibit highly aggressive behaviors.
- **360° Transportation (Local and Distant)** – Local and Distant Transportation is provided by drivers trained in trauma-informed care and behavioral de-escalation (Ukeru/Crisis Wave). Local transportation can be provided for any type of situation within a 20-mile range. Distant cases are over 20 miles with out-of-state transportation available. Secure transports provide a non-intrusive approach for children/adolescents with aggressive behaviors. Emergency Aide(s) may be used when additional support is needed during distant trips.

Raising Our Children (ROC) – Home Based Parent Counseling focused on six core areas including nurturing and attachment; childcare and safety; health and nutrition; child growth and development; positive discipline; and parental and family resilience. ROC promotes a healthy parent-child relationship and utilizes the Nurturing Parenting Curriculum, an evidence-based program.

Therapeutic Day Treatment: Therapeutic Day Treatment (TDT) is school based counseling for at risk students exhibiting behavioral, emotional, or mental illness characteristics. TDT utilizes a Positive Behavioral Support model to identify, address and decrease problem behaviors and assist the student with optimal classroom behavior.

Parent Coaching: a prevention service that empowers caretakers with the knowledge and tools necessary to parent effectively and with confidence while maintaining a healthy, nurturing relationship with their child. Parent Coaching offers individualized approaches to teach caretakers parenting skills through an evidenced-based parenting curriculum. During home-based sessions, parenting specialists provide remedial review of curriculum information, model parenting skills, role-play parenting techniques with the caretaker, facilitate opportunities for caretakers to begin practicing healthy parenting strategies within their parent-child relationship, and tailor their intervention to meet the unique needs of each caretaker.

Multisystemic Therapy: MST is an evidence-based program that empowers at-risk youth and their families to function responsibly over the long term. The targeted population for MST is youth ages 12-17 years old, at risk of being removed from home due to delinquent and antisocial behavior. This includes Virginia Children's Services Act populations, youth who are eligible for services through a Child in Need of Services (CHINS) Agreement, youth who have significant emotional or behavioral problems and may be at risk of residential placement as well as Department of Juvenile Justice populations.

S.T.A.Y.: STAY is a home-based service that aims to keep families together by stabilizing the home placement of youth who are at high and/or imminent risk of being placed in a congregate care setting. Standing for Safety, Treatment, Action and You & Your Family, STAY is anchored in trauma-focused, evidenced-based training and interventions. STAY offers a team approach in meeting the behavioral health needs of youth and their families, recognizing each family member as an essential part of the team. STAY relies on a collaborative model to teach the skills necessary to thrive in the home, school, and community, including these four service areas:

- Safety Planning and Monitoring
- Development of Individual and Family Protective Factors
- Trauma-Focused, Evidence-Based Parent Skill Training
- Comprehensive Service Planning and Coordination

ABA Services:

Initial Behavior Assessment – Completed by Board Certified Behavior Analyst or Board-Certified Assistance Behavior Analyst. Service is to determine appropriateness of ABA therapy and develop initial treatment plan. Includes direct and indirect assessment of client, interview with family members and other service providers, development of treatment plan, and determination of treatment frequency.

Direct Services by RBT/BT (1:1) – Direct implementation of ABA treatment plan by a Registered Behavior Technician or ABA Behavior Tech.

Supervision/Program Development/Parent Training by BCBA/BCaBA – encompasses work completed by BCBA/BCaBA on an on-going basis for client, including supervision of RBT/BT (simultaneously with 1:1 or group services), ongoing program development and treatment plan updating, parent and caregiver training, and other required services such as direct observation and feedback. Occurs at 10-20% of direct service hours.

Group Services by RBT/BT – 1:2-1:4 services with one Registered Behavior Technician or ABA Behavior Tech and up to 4 clients working together on social skills, group skills, or other interventions best taught in a small group of same-aged participants.

ABA Coaching and Consulting – Designed for families who require in-depth coaching by experienced RBT or directly by BCBA/BCaBA. Not a direct service but provided directly to a family in their home or in the community.

RBT Support in Group Environment – Registered Behavior Technician support for up to 4 clients simultaneously in a group environment. Bundled with BCBA/BCaBA supervision and support.
