This service is defined as a broad array of services targeted to provide assistance, support, and/or training in various community settings to build natural supports and functional skills that empower individuals and families towards autonomy, attaining and sustaining community placement, preserving the family structure, and assisting parents in effectively meeting the needs of their children in a safe positive and healthy manner. The services may include but are not limited to skill building (parenting skills, fiscal management, coping skills, communication, interpersonal skills, supervised visitation, non-foster care, etc.) and behavioral interventions.
