Notes:

1- State Determined Rate – This rate could be adjusted based on any adjustments to meet State Mandates or Guidelines

2- Medicaid Reimbursable Service

Note: Health Connect America follows all rate schedules set forth by the Department of Social Services. Should the state rate be adjusted, this rate sheet will be adjusted to meet all state mandates and guidelines.

Maintenance Basic 2 – Based on age, reimbursement for costs associated for “Room and Board”. *Rate determined by the state and subject to change with state guidance.

Parent Payment: (Enhanced Maintenance Payment – Per VEMAT) ... Enhanced Maintenance Payment is the source of the payment to foster parents for the extra supervision involved in their work with special needs/emotionally disturbed youth as defined by the Virginia Enhanced Maintenance Assessment Tool (VEMAT).

Private Foster Care Support Supervision and Administration- Level 3 Intensive: The needs of a child served at level 3 on-going treatment foster care are of such acuity or severity that they require intensive action (interventions, services, supports etc.) be taken to address, remedy or ameliorate the needs. Without such intervention(s) the child may be at risk of residential placement. Children served at level 3 will demonstrate a high level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life-threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring, or intellectually disabled.* Every month respectively, Health Connect America staff will provide at least five (5) face to face visits with the youth, two (2) of which are conducted in the treatment foster home.

Private Foster Care Support Supervision and Administration - Level 2 Intermediate: The needs of a child served at level 2 on-going treatment foster care require that significant action (interventions, services, supports etc.) be taken to address, remedy or ameliorate the identified needs. Children served at level 2 will typically demonstrate relatively moderate level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life-threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring or, intellectually disabled.* Every month respectively, Health Connect America staff will provide at least four (4) face-to-face visits with the youth, one (1) of which is conducted in the treatment foster home.

Private Foster Care Support Supervision and Administration- Level 1 Therapeutic: The needs of a child served at level 1 on-going treatment foster care require monitoring or the LCPA may need to provide services to lessen the likelihood that identified needs will become more acute or return after being “resolved”. Children served level 1 will typically demonstrate a relatively low level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life-threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring or intellectually disabled.* Every month respectively, Health Connect America staff will provide at least two (2) face-to-face visits with the youth, one (1) of which is conducted in the treatment foster home.

Assessment Treatment Level: Children served at the assessment level of treatment foster care are those who are newly placed with licensed child placing agency and for whom an assessment to determine the appropriate level of foster care services is being conducted. The maximum stay at the Assessment Treatment Level shall not exceed sixty (60) days to complete a needs assessment and service plan, per requirements of VDSS, Division of licensing Programs. The time frame of the assessment may vary based on the accurate and thorough assessment

Health Connect America – Rates 07/01/23 – 06/30/24

of the child's strengths and needs. During this time period, Health Connect America staff will provide at least three (3) face to face visits with the youth, one (1) of which is conducted in the treatment foster home.

Non-Treatment Foster Care: Children served at the non-treatment level of foster care may be developmentally on target, demonstrate age-appropriate behaviors, able to participate in community activities without restriction, or be the sibling of a child who meets the criteria for on-going TFC placement in the same foster home. Children shall be served at the Non-Treatment Foster Care level if the assessment indicates treatment foster care services are not needed. Children/youth placed on the Non-Treatment Foster Care Level are not expected to meet DMAS criteria; this service includes a maximum of one (1) face-to-face visit with the youth in the treatment foster home and (1) face-to-face visit every 60 days conducted by Health Connect America staff. This contact per month includes 24/7 crisis intervention.

*All TFC-Support & Supervision Levels may have additional support services that assist in the implementation of the child/youth's treatment goals/objectives and/or permanency goal/discharge plan.

TFC Case Management ... Defined by DMAS in 2007, this service assists clients in gaining access to needed medical, social, educational, and other services. It covers assessment, planning, referral, and monitoring of services. It does not cover direct delivery of services, recruitment and approval of foster parents, their training, staff training, client placement, foster parent support, supervision, and other service components of TFC. This service is combined with the appropriate level of TFC-Supervision & Support described above. This service may or may not be covered by Medicaid depending upon the eligibility of the child. It is billed at a day rate when paid through CSA.

Infant Rate/Support Service ... This rate covers coordination of and services for infants who remain in the custody of a Treatment Foster Care client. This is an additional service that can be contracted on a case-by-case basis. Services for the infant will be monitored through the relationship with the client when placed together. The Basic Maintenance for the infant is added to the client's charges. For infants who are in the custody of social services and placed in a Health Connect America home, all individual foster care rates apply for infant.

Overnight Pre-Placement Visits... There is no charge for daytime or overnight pre-placement visits. The visits are intended to ensure proper placement and adjustment of child and family prior to formal placement. Mileage and travel expense reimbursement can be agreed upon for unique situations in advance of pre-placement visits on a case-by-case basis.

Transportation - Local Rate (less than 20 miles): Staff are matched with clients, according to their needs. As transportation cases vary with each client (depending on distance and all variables involved), HCA charges a flat rate to and from destinations.

Transportation - Distance Rate (20 miles and over): Staff are matched with clients, according to their needs. An hourly rate is charged for distances beyond 20 miles.

Short-Term Foster Care Services (Community) ... This is designed to provide crisis or alternate planned-support relief for up to 29 consecutive calendar days to families in need of substitute care placement arrangements for children/youth. The substitute care placement environments used are approved Health Connect America foster homes.

Respite Services ... This is a temporary, internal support service provided to approved Health Connect America foster families, for which Health Connect America staff arrange on their behalf with other internal Health Connect America foster homes by reviewing respite care options with teaching parents and by the matching children with

respite caregivers. Respite Services provide valuable support and relief to the primary treatment foster families while ensuring the health and safety of the client and families. Use of respite is also a healthy mechanism to enhance attachments for children/youth with their caregivers. This service can also provide emergency relief to internal Health Connect America families in crisis situations. An accrual system is utilized with Health Connect America foster families. This service can be contracted to allow for additional respite services for children/youth on a case-by-case basis when the child/youth have exceptional needs.

Supervised Visitation: Supervised visitation is one-to-one supervision where HCA staff ensure the safety of the children and all visitor(s) as well as provide basic information to help facilitate parent/child interactions by offering minimal suggestions, such as age-appropriate developmental expectations and interventions. Supervision provided by Bachelor or Master level staff member. Report provided.

Therapeutic Relief: Emergency relief staff are dispatched on short notice to provide adequate supervision for children/adolescents needing assistance for up to 30 days. Full 24-hour supervision is also available. Additional relief staff may be utilized for children/adolescents who may exhibit highly aggressive behaviors.

Transitional/Socialization Services - Transitions children back to a lower level of care within the community. Includes case management and involvement of the foster parents to ensure success.

Custody Petition/Court Ordered Home Study – Home study completed to meet the requirements of the court.

Adoption Home Study and Training - Home study and supplemental training completed for the purpose of adoption.

Family Support Services – Broad array of services targeted to provide assistance, support, and/or training in various community settings to build natural supports empower individuals and families, sustaining community placement, preserving the family structure. Services include but not limited to supervised visitation, skill building interpersonal skills, coping skills, communication, behavioral interventions, parenting skills.

There is no charge for non-treatment level case management. In addition, if Medicaid determines the child does not meet medical necessity criteria and denies Treatment Foster Care Case Management, CSA may pay for case management based on justification of need. In all cases, provider must obtain FAPT/CPMT prior approval.

Service descriptions last revised 02/27/23.

3 - Reimbursement rate is county specific (Rural vs. Urban)

Health Connect America
Community Based Services – Service Descriptions
July 1, 2023 – June 30, 2024

Case Conferencing: Case Conferencing differs from routine coordination. Case conferencing is a more formal, planned, and structured event separate from regular contacts. The goal of case conferencing is to provide holistic, coordinated, and integrated services across providers, and to reduce duplication. Case conferences are usually interdisciplinary and include one or multiple internal and external providers and, if possible and appropriate, the client and family members/close supports. Case conferences can be used to identify or clarify issues regarding a client or collateral's status, needs, and goals; to review activities including progress and barriers towards goals; to map roles and responsibilities; to resolve conflicts or strategize solutions; and to adjust current service plans. Case conferences may be face-to-face or by phone/videoconference, held at routine intervals or during significant change. Case conferences are documented in the client's record. Participation in child specific treatment team meetings, family partnership meetings, and/or service planning meetings are examples of case conferencing.

Intensive In-Home Services - Services for children/adolescents under the age of 21. Services are intensive, time-limited interventions provided typically but not solely in the residence of a child who is at-risk of being moved into an out of home placement or who is being transitioned to the home from an out of home placement due to documented clinical needs of the child. These services provide crisis treatment, individual and family counseling and communication skills (e.g. counseling to assist the child and his parent to understand and practice appropriate problem-solving, anger management, and interpersonal interactions, etc.) and coordination with other required services. Services also included 24-hour emergency response.

Supportive In-home Services - Support and other structured services provided to strengthen individual skills and or provide environmental supports for individuals with behavioral/mental health problems. Services are based on the needs of the individual and include training and assistance.

Family Centered Treatment - Family Centered Treatment (FCT) is an evidence based and well-supported trauma treatment model of home-based family therapy. The primary utilization of this service is for stabilization of the family/prevention of removal from home and reunification should a youth be placed in foster/kin/congregate care. Applying practical, experiential, and common-sense solutions, FCT is designed to increase family health and well-being, promote attachment and resiliency among members, and develop functional solutions for maladaptive patterns (behavior). FCT builds upon family strengths and addresses individual and family trauma by addressing underlying causes, not just the symptoms.

Mental Health Skill-Building Service - A training service for individuals with significant psychiatric functional limitations. Services are designed to train individuals in functions skills and appropriate behavior related to the individual's health and safety, activities of daily living and use of community resources, assistance with medication management and monitoring health, nutrition, and physical condition. These services are intended to enable individual with significant mental illness to achieve and maintain community stability and independence in the most appropriate, least restrictive environment.

Parent Coaching & Mentoring: Using the KEYS community-based model, this prevention service empowers caregivers with the knowledge and tools necessary to parent effectively and with confidence while maintaining a healthy, nurturing relationship with their child. During home-based sessions, staff provide remedial review of evidence-based curriculum information, model parenting skills, role-play parenting techniques with the

caregiver, facilitate opportunities for caregivers to begin practicing healthy parenting strategies within their parent-child relationship, and tailor their intervention to meet the unique needs of each caregiver.

Therapeutic Mentoring: Therapeutic Mentoring is available to all school aged children under the age of 21. Transitional specialists focus on life skills proficiency, anger management, social skills training, leadership, and academic support. 360 is equipped to work with the special needs population, including autism. This is a one-to-one service.

Therapeutic Relief: Emergency relief staff are dispatched on short notice to provide adequate supervision for children/adolescents needing assistance for up to 30 days. Full 24-hour supervision is also available. Additional relief staff may be utilized for children/adolescents who may exhibit highly aggressive behaviors.

Specialized School Support (1:1): Provided by a QMHP level staff in the classroom setting, services include individualized support with classroom support to decrease disruptive behaviors, crisis intervention, processing of maladaptive behaviors, development of prosocial skill development in the classroom setting, ADL skills, as needed, for students struggling with independence, and assistance in transition between classes. Minimum of 2 hours per day.

Head Start Observation: Clinical observation of a classroom where the teacher(s) have noted difficulty in managing specific students or groups of students. Includes provision of recommendations for each student in question and recommendations provided to the Head Start Supervisor of classroom management that may improve potential client response to situations. Completed by a Resident or LMHP. Includes 2 hours billable time for the observation and paperwork. Note: Mileage is calculated as 1 mile = 1 minute for billing purposes.

Supervised Visitation: Supervised visitation is one-to-one supervision where HCA staff ensure the safety of the children and all visitor(s) as well as provide basic information to help facilitate parent/child interactions by offering minimal suggestions, such as age-appropriate developmental expectations and interventions. Supervision provided by Bachelor or Master level staff member. Report provided.

Transportation - Local Rate (less than 20 miles): Staff are matched with clients, according to their needs. As transportation cases vary with each client (depending on distance and all variables involved), HCA charges a flat rate to and from destinations.

Transportation - Distance Rate (20 miles and over): Staff are matched with clients, according to their needs. An hourly rate is charged for distances beyond 20 miles.

****Contracted Services****

GeneSight Psychotropic Testing: The GeneSight Psychotropic test is a genetic test that shows a practitioner/provider how a client's genes may affect medication outcomes. The GeneSight test may reveal which medications to treat depression, anxiety, ADHD, and other mental health conditions, require dose adjustments, be less likely to work, or have an increased risk of side effects based on the client's DNA.

Urine Drug Screen Confirmation or Oral Swab: Sent to external provider to complete testing. Client can obtain results from external provider. Results will be shared with HCA staff with consent.

Health Connect America
ABA Services – Service Descriptions
July 1, 2023 – June 30, 2024

Initial Behavior Assessment – Completed by Board Certified Behavior Analyst or Board-Certified Assistance Behavior Analyst. Service is to determine appropriateness of ABA therapy and develop initial treatment plan. Includes direct and indirect assessment of client, interview with family members and other service providers, development of treatment plan, and determination of treatment frequency.

Direct ABA Services by RBT/BT (1:1) – Direct implementation of ABA treatment plan by a Registered Behavior Technician or ABA Behavior Tech.

Group ABA Services by RBT/BT – 1:2-1:4 services with one Registered Behavior Technician or ABA Behavior Tech and up to 4 clients working together on social skills, group skills, or other interventions best taught in a small group of same-aged participants.

RBT Support in Group Environment – Registered Behavior Technician support for up to 4 clients simultaneously in a group environment. Bundled with BCBA/BCaBA supervision and support.

Supervision/Program Development/Parent Training by BCBA/BCaBA – encompasses work completed by BCBA/BCaBA on an on-going basis for client, including supervision of RBT/BT (simultaneously with 1:1 or group services), ongoing program development and treatment plan updating, parent and caregiver training, and other required services such as direct observation and feedback. Occurs at 10-20% of direct service hours.

ABA Care Coordination – A BCBA/BCaBA leads an interdisciplinary team to determine how to best support the child's needs through the individualization of established goals and outcomes across various settings and with different clinicians.

ABA Coaching and Consulting – Designed for families who require in-depth coaching by experienced RBT or directly by BCBA/BCaBA. Not a direct service but provided directly to a family in their home or in the community.

Consultation and Supervision of ABA Services (by Licensed Staff) – Licensed staff provides ongoing supervision and oversight to any RBT providing direct support to a client.

Registered Behavior Technician – a paraprofessional, who completed the RBT certification, assists in delivering behavior analysis services and practices under the direction and close supervision of an RBT Supervisor
