

What are the penalties for not complying with the ignition interlock program?

Your ASAP case manager and the ignition interlock vendor will review the conditions of your probation and the terms of the interlock program. You will be required to sign a participation agreement. Violations include positive BACs on breath tests, failing to submit to a test when required, failing to report to the vendor's service center for required appointments, tampering with the ignition interlock device or otherwise attempting to circumvent it, and driving a vehicle not equipped with an ignition interlock. Some of these violations may result in additional criminal charges. Remember, you must have no alcohol-related violations during your ignition interlock requirement. All violations will be reported to your ASAP case manager and may result in your return to court for noncompliance.

Can I change interlock vendors?

Once you have selected a vendor, you will generally be required to use the same vendor for at least six months. Authorization to change vendors will only be granted if it can be shown that there was a problem with the service provided by the original vendor.

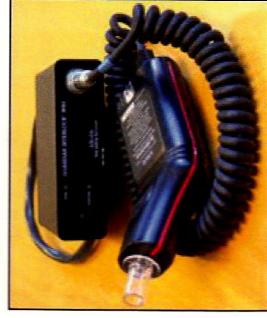

What if I have a complaint?

If you experience any problems related to your device or service, you should first advise the vendor or your ASAP case manager. If your problem is not successfully resolved, you may contact the director of your assigned ASAP. The Commission on VASAP is available for you at (804) 786-5895 if your problem is not resolved by one of the means referenced above.
